If you separate it, it's a resource; if you mix it, it's trash.

Thank you for your

Please separate your garbage properly by type and take it out to the designated "garbage collection point" in your area by 8:30 a.m. on the designated day of the week.

For collection dates, please check the "Ono town Separated Collection Schedule" table.

Garbage will be collected as usual on public holidays.

For collection during the end of the year and New Year holidays, please check the "Ono Town Separated Collection Schedule".

Ono Town "ONOMACHI"

Introduction

Fukushima Prefecture has the second-worst amount of garbage produced per person per day in the nation (2nd worst). (Results of 2020)

Fukushima Prefecture: 1,033 grams per person.

Ono Town: 837 grams per person.

Ono Town is ranked 43rd for the less amount of waste it producus in Fukushima Prefecture.

By reducing waste and recycling it as resources, we can reduce the amount of carbon dioxide (CO2), which causes global warming, and reduce the amount of landfill waste (final disposal). Let's separate our garbage and create a recycling-oriented society where we can reuse our limited resources.

Request for proper management of garbage collection sites

Request for separating garbage

Please separate garbage correctly and take it out to the designated collection point on the designated day.

Please tie each bag tightly.

*We collect waste using different collection vehicles for each type of garbage.

Punctuality

Please put your garbage in designated bags and take it to the collection point by 8:30am on the designated day.

**Collection is done in order from 8:30 a.m.

Thorough management

The garbage collection place will be managed by everyone who uses it.

Please keep the facility clean by deciding who will clean it in turns.

Items with violation stickers must be taken back by the person who put them out, and they should be disposed of correctly according to the proper rules.

For inquiries regarding resources and garbage Inquiries regarding resources and waste

Ono Town Hall, Citizen Life Department TEL 0247-72-6933

Paper Products

You can recycle newspapers, advertisements, magazines, cardboard, paper packs, books, and empty snacks boxes. Please tie each type of item crosswise with string or place them in a cardboard box or paper bags, seal them, and put them out for collection.

*If you put items in a cardboard box, etc., please write the type of items (newspapers, magazines, etc.) in a visible place on the outside.

Please dispose off the following items separately: [Newspapers], [Books, magazines, and other paper], [Cardboard], and [Paper cartons].

Newspaper

Please tie newspapers and flyers (including advertising flyers) in a crosswise with string, or put them in a box.

Newspapers and advertising flyers

Books, magazines and other paper

Please bundle books and magazines crosswise with string. Flatten snack boxes and similar items, then either tie them crosswise with string or place them in a box for disposal.

Books, magazines and other paper

The item with a wavy cross-section is called cardboard. Please bundle them crosswise with string or place them in a box for disposal.

Cardboard

Paper pack

Please rinse it lightly, cut it open, and either tie it with string or place it in a box for disposal.

Except for those with silver inside

Paper pack

Other types of paper

Paper boxes for snacks and food, wrapping paper, tissue paper boxes, envelopes (without glue or unopened), memo paper, calendars, chopstick holders, toilet paper rolls, plastic wrap rolls, etc.

Paper that cannot be recycled

Carbon paper, thermal paper such as receipts, gold and silver paper, pressure-sealed postcards, vinyl-coated paper, photographs, sticker paper, scented paper, paper cups, tissue paper, waterproof paper (such as yogurt containers), paper with aluminum foil on the inside, instant noodle lids, paper that is stained with oil or mud, waxed cardboard, and envelopes (opened or glue), etc. cannot be recycled and should be put out as [burnable Garbage].

Receipts tissue pa

per paper cups

envelopes(opened or glue)

photos

yogurt

Cans

Steel and aluminum cans of beverages such as juice, beer, tea, coffee, cocktail, etc. Please rinse the cans lightly before disposing of them.

Please dispose of the cap as non-burnable garbage. In addition, cans of fruit, fish, and meat can also be considered non-burnable garbage.

Aluminum cans and steel cans

Please remove the cap and dispose of it as non-burnable garbage.

Aluminum and steel cans can be placed in the same bag.

Cans of fruits, fish, meat, etc. are classified as [non-burnable garbage].

Aluminum cans and steel cans

< Recycle mark >

Only cans with the following recycling marks can be disposed of as cans.

Don't put cigarette butts or other trash in the can! It won't be recyclable!

Can of canned food

Please dispose of canned food cans as non-burnable garbage.

PET bottles

PET bottles for juice, tea, mineral water, soy sauce, mirin, etc.

Please rinse the bottles lightly with water before disposing of them. Separate them from other plastics and dispose of only the plastic bottles.

PET bottles

Remove the caps and labels and dispose of them as **plastic** (if they are paper, dispose of them as **burnable waste**). \times Only items that can be removed by hand are acceptable.

< Recycle mark >

Only plastic bottles with the following recycle marks can be recycled.

PET bottles

**Please separate PET bottles from other plastics and put them in the designated bags.

Plastic bottle of oil and Dirty plastic bottle

Plastic bottles of oil and oily dressings cannot be recycled, so please dispose of them as burnable garbage.

If there are caps or labels still attached or any contents remaining in the bottle, it cannot be recycled, so please help us by removing them.

Glass bottles

Bottles for alcohol, juice, beer, seasonings, etc.

Rinse the bottles lightly with water and then separate them into clear (colorless transparent) bottles, brown bottles, and other colored bottles.

Clear bottles, brown bottles, and bottles of other colors

Please dispose of clear bottles, brown bottles, and bottles of other colors in separate designated bags.

Bottles of other colors

Caps, lids, corks, etc.

Please remove caps, lids, corks, etc.

Metal items should be put into the "non-burnable garbage" category, plastic into the "plastic" category, and corks and other items into the "burnable garbage" category.

Caps, corks, etc.

Bottles for oil and dressing, and bottles that cannot be cleaned.

Please dispose of it as non-burnable garbage.

Bottles for oil and bottles that cannot be cleaned

If the bottle breaks

To prevent any danger, please wrap it in newspaper etc. and dispose of it as non-burnable garbage.

Plastic

Plastic containers and packaging that become unnecessary once the product contents have been removed or eaten.

Instant noodle containers, candy bags, egg cartons, side dish trays, cups, plastic bottle labels and caps, films, plastic wrap, Styrofoam, fruit nets, etc. If there is food residue or other dirt remaining on the cups or trays, rinse them lightly before disposal.

If the item is very dirty or oily, please dispose off it as "burnable garbage" Also, please put out the garbage in a separate bag from plastic bottles.

<Recycle mark>
Items that can be disposed of as plastic have the following markings:

Trays for side dishes etc.

PET bottle caps and labels

Egg carton

Styrofoam

Plastic products such as toys, hangers, plastic containers, buckets, etc.

Items made of plastic that are not packaging or warping should be disposed of as **burnable garbage**.

Plastic Toys

Mayonnaise container

Buckets and hangers

Burnable Garbage

These are items that cannot be recycled and can be burned due to their material properties.

Separate recyclable resources as much as possible to reduce burnable garbage.

Food waste (kitchen garbage), non-recyclable paper (such as carbon paper and vinyl-coated paper), clothing, shoes, pruned branches, wood chips, and paper diapers, etc.

Plastic products

Please drain the water from food waste before disposing of it.

Please flush diaper waste down the toilet. For wooden pieces and pruning branches, please cut them to a length of 60 cm and a thicknes of 10 cm or less, bundle them, and place them in a designated bag. If they do not fit in the designated bag, they will be classified as bulky garbage.

Please cooperate with the separation of resources

Items such as candy boxes, calendars, plastic wrap cores, tissue paper boxes, and wrapping paper can all be recycled.

Please dispose of it as [paper] referring to page 2. Also, when it comes to clothes, use second-hand clothes collection service as much as possible.

Paper

Recycling of used clothing, etc.

Non-burnable garbage

Garbage that cannot be burned due to its material.

Broken glass and sharp knives should be wrapped in paper or other material to prevent injury.

Non-burnable garbage

Metal or ceramic cookware, tableware, pottery, glassware, iron products, bottle and can caps (metallic), umbrellas, small household appliances, oily or dirty bottles, canned food tins, etc.

Please wrap knives, broken glass, broken bottles, etc. in newspaper to prevent danger. Small household appliances such as hair dryers and rice cookers can only be disposed off if they fit into the designated bag for "non-burnable garbage."

Dangerous garbage

Batteries, lighters, spray cans, fluorescent lights, etc., are classified as [dangerous waste]. Please do not dispose of them together with [non-burnable waste].

Bottle

Bottles that are not oily or dirty should be disposed off as "Bottles".

If a bottle breaks, wrap it in newspaper or other paper and dispose of it as "non-burnable garbage".

Dangerous garbage

Batteries, such as dry batteries and household appliance batteries, as well as waste that poses a risk of explosion and mercury (such as thermometers), require careful handling.

Dangerous garbage

Dry cell batteries, light bulbs, fluorescent lights, mercury thermometers, gas cartridges, spray cans (aerosol cans), lighters, batteries (for home appliances), etc.

When separating items, please read the product descriptions carefully and separate them carefully. For home appliances that use batteries and where the batteries cannot be removed, please dispose of them as [dangerous waste].

For household appliances with removable batteries, please dispose of the batteries as 'dangerous waste' and the main body as 'non-burnable waste.'

Fluorescent lights should be placed in the box they were purchased in and disposed off as dangerous waste.

Please make sure to empty spray cans before disposing of them.

*Do not drill any holes as it is dangerous.

Battery

Video cameras and digital cameras are considered "non-burnable garbage," but batteries are considered "dangerous garbage." Please separate them before disposing of them.

There have been cases of explosions and fires occurring because dangerous waste was not properly separated.

Please separate the waste correctly!

• Important notice for disposal!

If dangerous waste is not disposed of properly, it can be dangerous for those using the collection site. To ensure safety, please separate your waste correctly.

Bulky (large-size) garbage

Garbage that does not fit into the special bag is classified as large garbage. Bulky garbage will not be collected at garbage collection points, so it must be taken directly to the Tamura Clean Center.

Bulky(large) garbage

Bicycles, chests of drawers, chairs, tables, futons, carpets, tatami mats, etc.

futons

tatami

Disposal method

You must bring all your bulky waste by yourself.

The fee is 100 yen (tax included) per 10 kg of waste.

You can also request a "general waste disposal licensed company" designated by the town to take care of it. (An additional fee will be charged.)

Drop off address: Tamura Clean Center

48-29, Hirose Yadaijin, Takine-cho, Tamura City

Telephone: 0247-78-2723

Opening hours: 9:00am - 4:00pm

Opening days: Please see the garbage sorting collection schedule.

• Garbage that cannot be disposed of in town

Pianos and organs, drums, agricultural waste, batteries (other than for home appliances), fire extinguishers, tires, spring beds, construction waste, etc.

Fire extinguisher

Agricultural waste

battery

tire

Construction waste materials

Specific home (electrical) appliances

For the four home appliances: air conditioners, televisions, refrigerators/freezers, and washers/dryers, please choose from the methods below.

When making a request to a retail store, etc.

If you are replacing a product, please ask the store where you purchased it or a town-designated "general waste disposal licensed company" (additional fees apply).

Recycling and transportation fees vary depending on the product, so please inquire with the retailer or collection and transportation company you request.

air conditioner

Refrigerators and freeze

Washing machine and dryer

When bringing to Tamura Clean Center

① Please purchase a home appliance recycling ticket at your nearest post office.

(The product manufacturer name, model number, etc. are required.)

- *The amount varies depending on the product, so please check at the post office.
- 2 Delivered to Tamura Clean Center

Please pay a transportation fee of 1,300 yen (tax included) per unit when you bring the items in. Tamura Clean Center Address: 48-29 Yadaijin, Hirose, Takine-cho, Tamura City

Phone: 0247-78-2723

Opening hours: 9:00am - 4:00pm

Opening days: Please see the garbage sorting collection schedule.

- When bringing the item to a designated collection point for home appliance recycling
- 1 First, please call the Home Applionce Recycling Ticket Center.

(The product manufacturer name, model number, etc. are required.)

Toll free number 210-319640

If you can't conect via IP phone, etc. 03-3903-7551

- 2 Please purchase a home appliance recycling ticket at your nearest post office.
- 3 Please take your electrical appliances to the designated area.

The Home Appliance Recycling Ticket Center dose not collect home appliances from your home. If you would like your electrical appliances to be collected from your home, please contact Businesses approved by the town. Additional charges apply.

Garbage that can't be disposed of in town

For garbage that is difficult to dispose of at town facilities, please contact the retailer or a town-designated "licensed general waste disposal business."

• Items that are difficult to dispose of

Tires, gas cylinders, metal barrel, agricultural waste such as vinyl, motorcycles, fire extinguishers, roof tiles, safes that do not fit into designated bags, concrete construction waste, machine oils such as engine oil, dehumidifiers containing freon (fluorocarbons), etc.

※ Dehumidifiers containing freon can be placed in a designated bag as 'non-burnable waste' only if the freon has been collected by a freon collection company. If they do not fit in the designated bag, they can be disposed of as bulky waste. In that case, please attach the freon recovery certificate to the dehumidifier.

*These items cannot be collected or brought to the Tamura Clean Center.

They will not be collected if dropped off at the collection center, so be sure to check with the retailer or a town-designated "licensed general waste disposal business."

Businesses approved by the town

^{*}For disposal of industrial waste, etc., please contact the relevant company directly.

About unauthorized companies

Do not use "unauthorized" collection companies.

When requesting disposal of household waste, you must request it from an authorized general waste disposal company designated by the town. Unauthorized waste collection companies are companies that do not have a general waste disposal license or are commissioned by the town and collect waste illegally.

(Industrial waste disposal licenses and secondhand goods dealer licenses do not allow collection of household waste.)

If you request collection from these companies, there is a possibility that proper processing will not be conducted, you may be charged high fees later, and it could lead to illegal dumping or environmental pollution.

About business waste (general business waste)

By law, businesses are required to properly dispose of "business waste" generated by businesses at their own responsibility and expense. Since it cannot be taken to a local waste collection center, please dispose of it properly using one of the following methods.

What is business waste (business general waste)?

Business waste (general business waste) refers to waste generated from business activities, not only from profit-making businesses like stores, companies, offices, and factories, but also from places providing public services, such as hospitals, government offices, and schools. (including paper, packaging materials such as cardboard, empty lunch containers, pruning branches, etc.)

Method of disposal ① the company transports the waste to the processing facility by themselves.

Delivery destination: Tamura Clean Center

Address: Tamura-shi Takine-chou Hirose Yadaijin 48-29

Phone number: 0247-78-2723 Opening time: 9:00am - 4:00pm

Opening days: Please see the garbage sorting collection schedule.

<u>XYou will be charged a fee of 100 yen (including tax) per 10 kg.</u>

*Advance notification to the Tamura City Environmental Division is required.

Method of disposal ② Please contact a general waste disposal company designated by the town.

Please ask a licensed general waste disposal company (page 13) authorized by the town to dispose of the waste.

*For details on fees etc., please contact the company directly.

Where to bring recyclable resources and garbage

Household waste can be brought directly to the Tamura Clean Center.

When bringing in, please be sure to separate items by type.

If you put it in the designated bag provided by Ono Town, there is no charge.

If the items are not in the designated bags provided by Ono Town, the following fees will apply.

Type / Category	Cost / Fee
Paper products	free
Cans, PET bottles, glass bottles, plastics, burnable	
garbage, non-burnable garbage,	50 yen per 10 kg
hazardous(dangerous) garbage	
Bulky/Large waste	100 yen per 10 kg

Delivery destination : Tamura Clean Center

Tamura-shi Takine-chou Hirose Yadaijin 48-29

Phone : 0247-78-2723 Opening time : 9:00am - 4:00pm

Opening days: Please see the garbage sorting collection schedule.

You can bring the waste even if it is not in the town-designated bags, but please be sure to sort it by type before bringing it in.
